Yes. Agree. Still better than the earlier drafts.

Subject: Drafts of Oversight response for review - due to HQ COB today

Michelle, Dennis and others,

A good team effort (especially Paula and Lisa) has produced the following draft response narrative with additional documents that we may want to use for other purposes that lay out the facts in a more narrative form. I include the main response draft in this email (and attached with track change included) with the other supporting document attached (I did not include a draft document Paula was working on related to the OIG question)

Reminder our draft(s) are due to HQ by COB today (meaning later tonight if needed).

I am headed down to the Commission with Paula and Lisa in a few minutes so please have at your review/edits and I will compile/revise based on those when I get back to my computer if needed.

Thank you,

Peter
